## IN THE WORLD OF SPORT.

Portlands Won Yesterday By Making  
Ten Runs in an Inning.

A TWELVE INNING GAME TIED AT  
PAWTUCKET.

Plenty of Sport for Fishermen on Sebago  
Lake—Portland Anglers Find Good  
Luck in the Trout Brooks—The Wheel  
Club Boys Preparing for Race Meet-  
ings.

Another loosely played game and a large score, heavy batting, loose fielding and a victory for the home team was the result of yesterday's meeting between the Portlands and the Salems. The visitors were in somewhat the same positions as the Manchesters were the day before, having no available pitcher. O'Neill, who started in the first of the game, was suffering with a very lame hand, being very nearly unable to grasp the ball at all, or it is extremely doubtful if Portland would have made five successive hits off him in one inning. He pitched for Manchester last year and was in it with the best in the league. Deady who succeeded him is not a regular pitcher, but all things considered did very good work.

After Portland had been blanked in the first, the visitors came in for their half when a single by Moore, a base on balls and O'Neill's double sent in two runs. Portland in the second took the lead when singles by Rogers, Clymer, Johnson, Burns, Stott, Kirmes and O'Brien's bases on balls, a home run by Rogers, Clymer's and Johnson's bases on balls and a double by Burns yielded ten runs, giving them a great lead and practically the game.

Salem was blanked in the second, but in each of the succeeding innings scored one or more runs. In the seventh five, making their total score 14 while Portland in the same time rolled hers up to 20.

It is very doubtful if the Portlands had not succeeded in batting out those ten runs in the second, if they would have won the game as the fielding, generally speaking, was of a very yellow order. Both catchers seemed to think that if they were to throw as hard as they were able, they would just about reach second base and acted accordingly, and as a result threw the ball into centre field. Burns's throws were costly, allowing men to score, but he also made some very fine throws, and all things considered, caught a fine game, it being his second time behind the bat this season. Both third basemen played a fine game, Spear having somewhat the best of it, but there was no comparison between the two short stops, Johnson not being in it. At the present time it seems as though he is rather overworked but he may strike a gait. Smith's work for the visitors was simply elegant. Rogers's batting and fielding were fine, and Stott pitched a good game and batted well.

Mr. O'Malley, the umpire, is a success. Attendance, 400. The score:

## AMONG THE HORSES.

Some Noted Steppers in Cornish  
Stables.

A Visit to the Stables of Frank P. Fox.

Cornish, as is generally known to those from abroad, is an ancient and lovely ideal New England village in the northerly part of York county, where it adjoins Cumberland, the dividing line being the Saco river that comes twisting down from the White Hills of New Hampshire. The railroad station is some thirty odd miles from Portland on the Mountain Division of the Maine Central railroad.

For many years a taste for good horses that seems to have come down from the prominent and brainy men for which that section has been noted for a century at least, has steadily developed until at the present day Cornish is one of the leading centres in Maine's great horse industry. To this advancement are the citizens of Cornish for the past quarter of a century entitled to the credit.

Of late years some of the finest bred stallions in the country have been located there and the grade has steadily been working up. Said a highly intelligent gentleman and an ex-President of the York County Horse Breeders' Association to the Press man: "We have a sufficiency of the best bred stallions in the country and our young stock is showing it. The only thing that Cornish needs now is to work up the grade of the needs. We shall accomplish this in time and it is progressing well. Our filly has been neglected but our folks are getting to think that lately horse buyers are much more particular about the dam side of the pedigree than the sire."

There are some half dozen gilt-edged stock horses in Cornish to-day, both by breeding performance and its production of speed by their get. Among these famous bred stallions which Cornish horse today we find Prescott, Maine Prince, Charolais, Pickpocket, Scipio and a score or more of lesser note.

Near the village are the Fair grounds where there is a good average half mile track and the members of the association or their representatives have a fine view of the track horses and in the morning there is a good chance for the working and display of horses in the broad level main street that runs through the settlement and it is well improved. Lots of fun is going on there in good weather to the joy of the piazza of the Lincoln House.

Frank P. Fox's Stable.

The first stable visited in Cornish is that of Frank P. Fox and about the first experience in the fine art of breeding a good horse and driver behind a green young horse that does not yet rejoice in a name. The animal is a black, spirited and rare gentleman's roadster at least if not a splendid dark horse in rank as well as color. He is a son of a fine bred horse, a 40 clip in every level spot and frequently shows a "30" gait. We have been accustomed to ride behind fast steppers for a good many years and do not exaggerate as to the speed of Frank Fox's black roadster. If any one doubts this, let him will unquestionably give him a ride and a safe and sure one, for the black is a pure trotter and steps as though he was a twin brother to Dr. B. Foster's full Jefferson mare of this city.

Mr. Fox has literally a barn full of horses, and a number of very notable animals. He has five stallions, including the old timer, Pickpocket, and the brilliant young horse, Maine Prince. Pickpocket is something of a wonder as a veteran. He will be twenty years old in June, but looks as bright as a colt, and no one sets his age at more than a dozen years from appearances. Pickpocket was by Pequaket, and the most that seems to be known about his dam is that she won a \$100 wager by reading some 16 miles with two in the wagon on a rough country in 58 minutes. Pickpocket's produce, like most famous horses, made him standard rather than by any performance of his own, but his capabilities for speed are indicated in a letter shown us recently by Dr. Geo. H. Bailey that was written by Mr. John E. Haines, the veteran horseman in 1880, when he had the horse in Massachusetts for sale. Mr. Haines said in this confidential business letter at the time that he had shown the horse in 2:30 and that he had sold him for \$6,000. "The green old horse is still quite a favorite with breeders and mares come from long local distances to be mated with him—one finely bred mare crossed across the country from Norway last Wednesday and Elsie B, the new Hampshire trotter, was recently sent to him. This is not to be wondered at when we find that the veteran has placed two in the .20 list, with one down to 2:14. Hanger M. took a 4-year-old record of 2:19. These records of the get of Pickpocket were made in races."

Maine Prince, bred by T. D. Emery, formerly of Harrison, but now engaged in the clothing manufacturing business in the clothing village well up into what is termed gilt-edged stock. His sire was Prescott and grand sire Harold, that began so many famous horses, Maud S, 2:08, among them. The dam, Queen, was by Gen. Withers and horsemen know what that conveys to speed and breeding. Maine Prince is certainly a magnificent animal today at the age of eight years. He is a perfect golden bay color with dark points. Strange as it may seem business matters prevented Maine Prince from ever being really tried for speed until recently. The development was so satisfactory that Mr. Fox lost no time in securing a third interest, with Mr. Berry and H. P. S. Gould of Portland. This finely bred animal that stood in the barn, as it were, for years, is developing speed rapidly. He is doing quarters and the track in 40 seconds, steadily dropping the mile trial. We saw his action. He is a pure trotter, and we at once said to Mr. Emery, "If good old Gen. Knox was alive and moving under that bay horse we should simply say he had changed his coat." "That's just what Charles J. Walker said the other day," was the response. Well, Maine Prince is a perfect trotter—a pure and powerful gait with something of the old tenacity of Gen. Knox to pounding, but greatly diminished. The action of Maine Prince is not only perfect as Gen. Knox's, but nearly as faultless as Nelson's, which is admitted to be perfection in trotting gait and hence the Western kiosk about Maine's great representative might be corrected without much difficulty by many people throughout the country. Maine Prince's two colts that have appeared in public, Vendome and Gerlie B, for the past two years attest as to his wonderful power as a producer of speed. This was demonstrated a great way at the Maine State Fair at Lewiston last year. During the season last year these colts got first money in nearly every race they started for in their respective classes. Vendome is now a well developed 4 year old, a splendid animal. Look out for Vendome somewhere this fall if his owner Mr. Emery, who regards him as a pet, should be pleased to start him. Then Mr. Fox has Key—a stone with a record of 2:28. He is a symmetrical but rather under sized, bay stallion, a son of Guarantee by Tom Patchen and the dam was by Gilbreth Knox. Also the black stallion Dr. Fox by Vander, a son of Gen. Knox, and the dam by Blackwood and still another a bay called Marco. Several finely bred brood mares and a particularly fine large bay Westland colt that moves and acts very much like his sire. This two year old Westland colt is a good stepper and as perfectly broken as a mature horse.

THE SON OF HAROLD.

Prescott, the sire of Maine Prince, son of Harold and grandson of Rydyk's great Hambletonian is at the stable of Dr. Wm. B. Swasey, a practicing physician. This horse of course is one of the finest bred in the country, going direct to the Abellian. He is a noble looking bay and a valuable addition to the horse breeding industry of Maine. Geo. F. Clifford, Esq., of Cornish, speaks very highly of Prescott and is breeding his fine standard mare Mother to him with good success at two highly promising youngsters.

CHURCHILL & FOSS'S STABLE.

At the stable of Messrs Churchill & Foss, a short distance out of the village, they have the well-known and favorite bay stallion Scipio 2:32. This animal is so well-known that he requires no further description. He has taken part in about all the annual autumn speed contests in the principal fairs of western Maine for some years past and shown himself a fast, reliable and game trotter. Good judges believe that Scipio's record as a 32 by no means measure the limit of his speed, and that he is capable of a better record. You may use my name and say that for what it claims to do it has no equal, and for malaria and chills it is far superior to quinine in many ways.

This, from the leading plainman in American history, a man whose integrity is unquestioned, should prove beyond a shadow of doubt that Kickapoo Indian Sagwa is just what is claimed for it: an honest medicine of pure curative qualities, combining the best of the vegetable kingdom gathered from the forests and gardens of nature.

FLINT BROS. STABLE.

The Flint Brothers have a large, fine stable near the railroad station at which we find the superb young bay stallion Charolais, foaled in 1888. His sire was Chimes, a son of Electioneer, the great producer of the day. His first dam was Brilliant and second dam Beautiful Bells. In Charolais's veins course the best trotting blood in the country going back through many equine generations. The fine young fellow stands nearly 16 hands and weighs well up to 1200 pounds. At full maturity he will undoubtedly fill out the full measure of each condition mentioned. Dr. George H. Bailey and many other owners of fine mares are breeding to Charolais. Dr. Bailey's Jersey Lilly has just been sent back to Matheon and will be a yearling by Westland, and several highly bred youngsters.

Cornish Colt Races.

The following is the list of entries in the colt stakes to be trotted at the fair of the Ossipee Valley Union Agricultural Association, Aug. 30 and 31 and Sept. 1 and 2:

Kennebunk Driving Park.

Following is the programme of races at Kennebunk Driving Park on Saturday, June 18th, 1892. Purse \$200 for 4 minute class, Purse \$200 for \$5.40 class:

The above purses are to be divided as follows: 50 per cent to first horse; 25 per cent to second horse; 15 per cent to third horse, and 10 per cent to fourth horse.

Entries will close on Saturday June 11th, 1892.

All entries must be made to C. H. Cole Secretary, Kennebunk, Maine.

Another Millionaire Trotter.

Young Charley Fair, son of the bonanza millionaire, recently decided to purchase a stable and go into racing. On May 23, he paid \$50,000 for four horses, paying \$30,000 for Yo El Rey, a two-year-old, next to the highest price ever paid for a two-year-old. Other animals bought were Stanford's Princess and Floodgate, and Harry I. Thornton's Darebin—Carrie C. colt. Yo El Rey is by Joe Hooker, and is full brother to Yo Tambien and half brother to Earl of Norfolk, Duke of Norfolk, the czar, and Rey Del Rey. He was bred at the El Arroyo Stud of Theodore Winters, in Nevada.

Trotter Rarus Dead.

Rarus, long known as the king of the trotting turf, died on Mr. Robert Bonner's farm at New York recently. He was twenty-five years old, being foaled in 1867, and died of old age. Rarus was bred by the late B. B. Conklin, of Greenport, L. I., and was by Conklin's Abdallah, a horse of unknown breeding, and out of Nancy Awful, by Telegraph. Rarus trotted his first race in 1874 at Hornellsville, N. Y., and was a constant performer for several years. At Buffalo in 1878 he lowered the trotting record to 2:13, and, remaining king of the turf until October, 1879, when St. Julien further reduced the mark to 2:12.

Rarus was purchased by Mr. Bonner in 1876 for \$50,000, and has not since appeared on the turf. Mr. Bonner using him on the road. When Rarus was twenty years old the late John Murphy claimed to have given him a trial mile in 2:11, but this is not a record.

Notes.

H. J. Lane, of East Raymond, has a fine young colt, foaled the 12th, named Raymond Wilkes, dam by Hillmans' Knox.

Dr. L. H. Jordan, of East Raymond, has a young colt, sired by George Moody Benton, dam by Mambrino Medium.

### Do You Know from Experience that there is Some Satisfaction

in putting on a shirt that's fit to wear, an excellent place for the shirt that isn't, is the rag basket. If you have not been troubled with an ill-made, ill-fitting, uncomfortable shirt, you have escaped a positive infliction; if you have been bothered by such an article you will be all the more apt to steer clear in the future. Don't get in a perfect rage every time you put a shirt on, but try OUR SENATOR, the most perfect fitting shirt made. The price does not signify the value.

Laundered \$1.10, Unlaundered \$1.

You have had plenty of experience with shirts, and this experience has probably taught you something. There isn't the least reason why you should be content with second rate material or make when that which is neither the one or the other is at your disposal for less than the same amount of money. Our BONANZA, made of the Langdon Cotton, reinforced front and back, perfect in fit and workmanship. Try one. Only 75c unlaundered, 85c laundered.

Our Forest City Short Bosom Shirt and Portland Price are equal value according to price. 65c and 50c each 10c extra laundered.

The Wonder Shirt is rightly named. Price 85c unlaundered, 10c extra for laundered.

## INTRAMURAL TRAVEL.

The Street Car, Omnibus and Cab Systems of Berlin.

Lessons Which American Aldermen Might Learn from Their German Colleagues—A Model Elevated Road.

(Special Berlin Letter.)

Our great cities are the serious problem of modern civilization, as they are likewise its pride and glory. Three-fifths of the people are now living in cities whose population ranges from fifteen thousand inhabitants upwards. Business, art, culture, center in these great municipalities. The cities are the foci of power, good or evil. They are storm centers. How to control the masses, how to govern these great communities, may well engage the most serious attention of sociologists and political economists. When populations

DOUBLE-DECKER STREET CAR.

are thus crowded it requires all the combination of good sense and scientific skill to render such hives of human beings habitable and healthful. Drainage, sewerage, light, ventilation, communication, as well as proper police care, are some of the great problems. One of the great questions is how to facilitate communication so as to enable the masses to move quickly from one point to another. In our American cities, with their immense territory, and the business section so far removed from the residence sections, this is indeed a serious problem. It must be confessed that the great European cities are greatly in advance of us in many of these lines. It is true that in these cities there are not in some cases the vast distances, as for instance in Berlin and Vienna where there are sometimes fifteen hundred people in one immense apartment-building. London, Paris, Berlin and Vienna are vastly ahead of New York and Chicago in the facilities for communication. Take Berlin, for instance, as an illustration. This city has grown with amazing rapidity. In 1866 the old medieval walls were removed. Since 1871, the date of the Franco-Prussian war, over eight hundred thousand inhabitants have been added, making now a population of a million and a half. The area is about thirty square miles, small in comparison with Chicago, which with its out-

DOUBLE-DECKER BUS.

most districts covers a territory equal to London with its six millions. There is probably not a large city in the world where the communication is so perfect and extensive as in Berlin. Particularly now we are interested to know how this is done. We have invited the world to Chicago and we shall have on our hands an immense piece of work to move the masses of people who are to pour in upon us.

In Berlin there are (1) cabs, (2) omnibuses, (3) street cars, (4) elevated railways—to say nothing of the great number of red-capped messengers or baggage carriers who may be found at the street corners. A stranger wishing to find out how he may find his way to the various parts of the city with ease can purchase for eight cents a little book called "Berliner Verkehr," or Berlin Communication, which contains a clear and ample account of the entire system of communication, with the names of the streets. Each policeman is furnished with a copy of this guide and is able, if his memory does not carry the information, to turn immediately to it.

There are six thousand cabs in Berlin. The cabmen dress in uniform—blue coats and cloaks, with glazer high hats and huge boots. The hats are placed in the winter time by huge fur caps. Alighting at a railway station you are not greeted with a motley crowd of yelling men thrusting their whips into your faces and threatening to carry you off bodily. A policeman hands you a brass check with a number, first or second-class carriage, as you may wish. "Cabby" is away you drive up only when his number is called. Then the fare seems ridiculously low to us Americans. For fifteen cents you are taken to your hotel, five or six cents extra being charged for heavy baggage. For twenty-five cents two can ride. These rates are doubled after eleven at night or before seven in the morning. Fare for heavy teams is proportionately small.

The omnibus lines traverse the city in every direction. They are well built, convenient and some are lighted by electricity by the use of storage bat-

teries. A great number are double deckers. The fare is of three grades, according to the distance, the lowest fare being two and a half cents, the highest six and a half. They are never crowded. They carry only as many as can be accommodated and when full no shaking of umbrellas will cause one to stop. You must wait until you find one with seating room. The price on top is uniformly two and a half cents for all distances. For a gentleman and in good weather this is the best place from which to see the city. The various lines are indicated. The bus lines are private property. There are no less than thirty-six distinct routes of street-car lines. The cars are very much like the American pattern. The capacity of each car is painted distinctly on the outside and no more are allowed to be taken up. The sight of a surging mass of women and men pushing, crowding, holding on by straps, and of over-loaded horses tugging with strained muscles, is never seen here. The fares are similar to the bus fares. Each passenger is given a ticket which he must keep in sight, for every now and then a general inspector comes aboard and examines each ticket. The double deckers are very popular. The American grip cars and the electric lines have not made their appearance here. These would indeed astonish our German neighbors. Yet, the Berlin street-car service is exceedingly convenient. They run at a good rate of speed and are ample at all times of day and night for the needs of the people. The charters of these companies expire within a given time, when the lines become the property of the city.

The travel in cab, bus and street car is not a shaking up of one's bones, but, on the contrary, the beautifully paved streets and fine road beds render the traffic comfortable to man and beast. Many of the principal streets are of asphalt, smooth and hard, and are kept immaculately clean by an immense army of street cleaners.

The elevated railway is a work of great interest. It completely encircles and crosses the city at convenient

ELEVATED RAILWAY BRIDGE OVER THE SPREE.

points. It is not raised on skeleton iron work, permitting the hot coals to drop down on the backs of horses and pedestrians, but built up solidly with masonry and iron. There are sixty-six bridges over water courses and over the River Spree. The elevation above the streets is about twenty feet. The cars are similar to the ordinary European railway carriages. The trains move at a high rate of speed. The management is very efficient, resembling somewhat that of the underground railway in London. There are no conductors. Tickets are given up at the end of the trip. There are first, second and third class cars, in the first two of which no smoking is allowed. The mass of the people travel third class. The elevated road relieves greatly the ordinary street traffic. This is controlled by the city. In addition to this there is a circle road or "Ring Bahn" by which trains are moved in all directions. The original purpose of this road was a military one, so that troops might be sent in any direction from whatever point they might arrive.

The conductors and drivers of buses and cars are paid very small wages, at least so it seems to us—scarcely one dollar a day. Indeed, fifty cents a day would be more nearly correct. How life can be sustained and a family provided for at such rates surpasses comprehension. The only way must be by the strictest frugality. At this the Germans as a class are adepts. We reckon in dollars and cents. They

A BERLIN CABBY.

reckon in marks and pfennigs, a mark being about twenty-five cents, composed of one hundred pfennigs. Life here is pared down to the last pfennig. There is one thing that comes in to relieve somewhat the small wages—that is the custom of tipping the conductor. Now and then five and ten pfennig pieces are dropped into his ready hand, followed by a grateful lifting of his cap. How utterly preposterous it would be for us to present the car conductor now and then with a cent or two. Yet this custom is everywhere in the Fatherland. Riding on New Year's day in Dresden in a street car I noticed that every passenger gave the conductor a few pfennigs in honor of the day.

In many respects we surpass the Germans in matters of public transit; but I doubt very much whether the public in America is so uniformly well served as here in Berlin.

# THE HOTEL MEN.

They Had a Good Time in Portland Yesterday—They Are Well Organized and Will Have Money Back if the City of Portland is Protecting Their Interests.

The meeting of the Maine Hotel Proprietors in this city, yesterday, was a large gathering. Wednesday evening they held a preliminary meeting of a private nature, and yesterday they went to the Ottawa House, where the annual meeting was held, and a shore dinner and sail enjoyed.

The following officers were elected: President—E. C. Sweet; Secretary—W. H. McDonald; Directors—H. E. Judkins, H. A. Brick, C. W. erry and L. W. Haynes; Vice President—O. E. Blackden of Dexter, and the following by counties: Androscoggin, Harry Murch; Lewiston, Arostook, W. H. Buzzell; Houlton, Cumberland, Robert T. Porter; Franklin, Samuel Farmer; Phillips; Hancock, N. L. Saunders; Eastport, Kennebec, A. W. Thayer; Augusta, Augustus, Capt. Camden; Lincoln, W. G. Hubbard; Wiscasset; Oxford, W. M. Shaw; So. Paris, Penobscot, O. E. Blackden; Dexter, Robert T. Porter; Kennebec, G. F. Murch; Sagadahoc, Jerry Shannon; Bath, Somerset, Henry Washburn; Kingsbury, Washburn, D. W. Gardner; Calais, Walden, H. Crosby; Belfast; York, D. W. Swan, Old Orchard.

The treasurer's account showed a surplus in the treasury. Twenty-eight new members were admitted, making the total membership about 400.

Of course it was expected that something would be done about political action in relation to the prohibitory law. But all matters relating to this subject were confined to the private meeting, although the annual address of President Sweet plainly conveys much between the lines as to this point. After congratulating his associates on the strength of their association, President Sweet said:

"We have in the State of Maine about six hundred hotel men and they are either represented here in person, or by letter showing that the interests of our association are so consolidated that we shall wield much which will be for the interest of our hotel men throughout the state. It is not our intention, as I understood it, to enter into any political party, but to organize every county in our state with a thorough organization with the single view of the promotion of our business and the protection, from every point of view, as every other business man of every other industry protects their own business, will enter into the spirit of the meeting and let us start on a solid basis today and when we do this, we are pledged by leading men, men with influence and money if necessary so that our business may be carried on in an upright and legitimate manner. Let us make no loud talk, but go to work, and do it, and the result will be a grand success."

# U. S. DISTRICT COURT.

BEFORE JUDGE WEBB.  
 FRIDAY.—J. S. Winslow et al. vs. barkentine Kate. This was a hearing on a motion for an execution against the stipulators in a bond given in November last by the majority owners for the return of the vessel to the port of Portland on or before May 1, 1892. The libellant alleged that the vessel was not returned, but that on the contrary, she sailed on April 23rd last for the coast of Africa. The court ordered a decree for the sum of \$2,015.52, being the value of the vessel as decreed by the court when the bond was ordered given.

The motion in this case is one that frequently made in practice in admiralty courts, and several interesting questions arose in the court as to the measure of damages, etc. An appeal was taken from the decree of the judge, as to the rule of damages, the admission of evidence, and jurisdiction of the court to issue execution.

The order having been read was laid over under the rules. The order provides for the assessing of the needed sum.

It is thought that the expenditures of this year, which were executed to be somewhat high on account of the extra-ordinary expenses of establishing the city government, can be provided for without any increase of the rate of taxation. The valuation, which is being made, is showing an increase of taxable property.

# The Sewer Problem.

Alderman Huthins introduced this order, which received its first reading: Resolved—That the city council determine that the following named streets, namely: Forest Avenue from William street to the centre of Pleasant street; Pleasant street to Smith street; Stevens Plains street to New street; Saunders street; Spring street to Plains street; Mechanic street; Lincoln street and Pearl street are in need of drains or sewers, and that the committee on drains and sewers caused to be made accurate plans and estimates of the cost of main drains or sewers, on the above-named streets, with their outfalls, and receptacles, and cause the same to be recorded and carefully preserved in record books to be prepared for this purpose.

# Notes.

A communication was received from the board of registration asking the city government to provide a safe place for keeping the lists which are now being made. The communication was referred to the finance committee with power.

Lemuel W. Dyer declined the appointment as Democratic election clerk for Ward 5. The resignation was accepted and the city clerk was directed to notify the Democratic city committee to select another for the place.

The ordinance forbidding loitering about streets, meeting houses, etc., on pain of a fine of not more than ten dollars, received its final passage and is now an ordinance of the city.

All the members of the council except Alderman Mitchell, were present last evening.

Alderman Jacobs presented an order, which was passed, establishing that a discount of 3 per cent. be granted on all taxes paid before Aug. 1st, of one per cent on all paid after that date and before Sept. 1st, and that six per cent interest be charged after Oct. 1st.

The city solicitor is to consider the rights of the city in the establishing of licenses.

# DEERING.

Captain Plummer, of the Mary Fink, is at home from a long voyage to Port Natal, South Africa, and thence home by way of Barbadoes.

Dr. Coleman of the Board of Health is out after a few days' illness.

Seventy-four registered yesterday. The board will be at Lewis Hall until and including this evening. Monday they will be in session at the town house.

The contract for building the new almshouse has been awarded to George Sylvester for \$4273.

# MUNICIPAL COURT.

BEFORE JUDGE GOULD.  
 FRIDAY.—Joseph A. Cavanagh, John J. Early, Edward J. Hinds and Joseph J. King, larceny; each fined \$5 and one-fourth costs.  
 Edward J. Hinds, Joseph J. King and John J. Early, larceny; each fined \$5 and one-third costs.  
 Dennis Tierney, larceny; 30 days city house of correction.

# POLITICAL NOTES.

Republican County Convention Called—The Democratic Sheriff Fight—Contests in Other Places.

The call for the Republican county convention is out. The convention will be held in Reception Hall, Portland, June 30th, the day after the Democratic county convention. After Monday the headquarters of the county committee will be open in the Jose building, Exchange street, where two rooms have been secured. The courteous, able and indefatigable chairman of the county committee, Mr. G. Fred Murch of Westbrook, will be in charge at these headquarters.

Some of our Democratic friends who are interested in the sheriff fight now going on in that party want to know why the bright blue and gold of our handsome city marshal's uniform is seen so frequently moving about in the bright green lands of Deering, Cape Elizabeth and other stamping grounds of the rural Democracy.

The Rockland Opinion is very anxious that the Maine delegates to Chicago be instructed hard and fast for Cleveland, in order that some of them, who are thought by the Opinion to be risky, may not be led away. The two delegates from this district are pretty well collared already.

Not alone in the Fourth Congressional District are the Democrats having a row over district delegates to Minneapolis. In the Third District things are shaping for quite a scramble.

Thompson of Belfast, Democratic candidate for governor two years ago, is halting between two opinions. He doesn't know whether he would prefer to be candidate for Congress in the Third District or candidate for governor.

Little is heard now-a-days about the canvass on the Republican side for the Congressional nomination in the Third District. At latest accounts the pendulum was swinging Burleighwards. The untiring, methodical and quiet work which the Governor has been doing seems to be telling as the time for the 8th of July convention draws near.

The election of Hon. J. H. Manley as member of the National Republican committee from Maine, in place of Hon. J. Manchester Haynes, who seems to have retired when he got a hint of the canvass which Mr. Manley was making, will be likely to make a change in the chairmanship of the Republican state committee. A new man will be likely to come on from Kennebec in Mr. Manley's place.

# A Smart North Berwick Girl.

Mr. J. F. Libby and Miss Libby, on their recent trip west made the acquaintance and were entertained by Mrs. Horatio Brooks of Dunkirk, N. Y. Mrs. Brooks is the widow of Horatio Brooks, who was the head of the Brooks Locomotive Works in that city, an establishment that turns out a locomotive a day, and since her husband's death Mrs. Brooks has conducted the entire business. Mrs. Brooks is a North Berwick girl.

# Testing His Work.

Mr. Fred Shaw, the sculptor, is in the city. He is testing his new discovery, the cutting of Carrara marble of a thickness that is transparent, so that it can be worked with the ease that an artist paints on canvas. The work of art is placed in St. Luke's cathedral, where the light from the stained glass windows and the size of the building renders it possible to decide how effective the work will be in a large edifice.

# "Jack" Smith's Case Not Pressed.

"Jack" Smith, whose case of alleged martyrdom attracted so much attention, and who was sentenced in the Superior Court on an old offence the other day, had his continued case for a liquor nuisance, called up in the Municipal Court yesterday morning. The case was not pressed.

Mr. Burgess is one of our Largest Grocers in this city, and by honest dealing has acquired for himself a first-class reputation.

TESTIMONY:—I have used

## Groder's Botanic Dyspepsia Syrup,

with the best of satisfaction. In my estimation there is no preparation equals it for the cure of Dyspepsia. One of its extra qualities is that it gives almost instant relief for all distress caused by food or water. I have sold it to my customers and they all cases it has proved its merits, and I safely recommend it to any one troubled with disordered stomach. No one can help praising it after giving it a trial.

Yours respectfully,

FRED BURGESS.

## TO PROVE OUR FAITH IN THE MEDICINE,

On and after October 1, 1891, we give every person selling our medicine the privilege of selling six bottles for \$6.00, and guarantee that in six it does you no good you can receive your money back. Read guarantee with every bottle. We claim to cure Dyspepsia, Headache, Sour Stomach, Heartburn, Kidney Complaint, Neuralgia, Distress after eating, Flatulence of the Heart, Colic, Nervousness, Loss of Sleep, Dizziness, Irrregularity of the Appetite, Pleurisy, Pains, Bloat, Wind on the Stomach, Hacking Cough, and Constipation. And why will it cure? Because it is Relaxing, Purifying, Soothing, and Healing. It is compounded from the purest roots and herbs, free from Alcohol or Morphia. It is harmless to the smallest child; children like it, and it is far superior to Castor Oil and all other preparations. Call for Groder's Botanic Dyspepsia Syrup. ## SONNET TO AMERICA.

BY SIR EDWIN ARNOLD.

America! At this thy Golden Gate,  
New travelled from those portals of the West,  
Parting I make my reverence! It were best  
With backward looks to quit a Queen in state!  
Land of all lands most fair, and free, and great,  
Of countless kindred lips, wherefrom I heard  
Sweet speech of Shakespeare—keep it consecrate  
For noble uses! Land of Freedom's Bird,  
Fearless and proud! So let him soar that stirred  
With generous joy! all lands may learn from thee  
A larger life, and Europe, undeterred  
By ancient dreads, dare also to be free  
Body and soul, seeing the eagle gaze  
Undazzled, upon Freedom's sun full-blaze.  
—Fotphar's Wife and Other Poems.

[From Our Regular Correspondent.]

Capt. Wm. C. Lunt is preparing for a voyage to Cape Colony, Southern Africa. He expects to sail from New York in the bark Chas. G. Rice in about ten days and will be gone eight months.

The buildings of Mr. Geo. W. Lord had a very narrow escape from destruction by fire Thursday afternoon. A small boy, playing near the barn, lighted a match and dropped it on a pile of dry

material which immediately took fire. From this the barn took fire and but for the prompt action of the ladies in the house the buildings, which are all connected, must soon have been in ruins. Mr. Lord has been very sick the past week and not able to be out of his room so no man was at or about the place at the time.

Rev. Henry A. Merrill of Washburn college, Topeka, Kansas, has been holding meetings this week at the First Parish chapel, Colley's corner. It is understood that he will speak to the people of the Parish again Sunday, in the church.

Casco.

The Cumberland Quarterly Meeting of Free Baptist Churches was held at the Union church, May 24, 25 and 26th. Rev. L. S. Bean preached the opening sermon. Rev. F. P. Wormwood and Rev. M. J. Coldren, a returned missionary from India, preached the first day. Rev. W. P. Curtis and Rev. M. Summerbell, D. D., preached the second day. The meeting was largely attended.

Memorial Day was observed by Charles Brekmers Post No. 115 at the Union church. Rev. J. J. Staples delivered the address.

Messrs. Holden, Baker and Fowler, of Portland, were in town Monday on a fishing trip. They carried home a nice string of trout.

baking powder for the United States Gov-  
ernment and its Army and Navy officers.  
For many years the Government has  
given its orders for Royal Baking Pow-  
der in preference to all others, it being  
found superior to all others in strength  
and purity by the official examination,  
and the only Baking Powder that will  
keep and retain its strength in the various  
climates to which it is sent by the Depart-  
ment.

## A NEW DRAW BAR

Has a Trial Yesterday Before Railroad  
Men.

A number of railroad men and others  
examined yesterday morning a new draw  
bar, in operation on a car in the Grand  
Trunk yard. This bar is almost entirely  
automatic in its operation. It consists  
of a frame of iron, or any material adapt-  
ed for the special purpose in view, holding  
the pin at a point that makes it ready at  
any time to drop. The pin can be lifted  
from either side of the car, by touching  
a connecting line of wire, so arranged as  
to lift the bar at the slightest touch.  
With this bar, there would be no neces-  
sity for passing between the cars, and a  
fatal accident, it is claimed, could only  
result not from the operation of the bar,  
but because of a recklessness on the part  
of the operator almost amounting to a  
desire to commit suicide.

The special advantages claimed for this  
bar are: Perfect safety in operation;  
rapidity with which a freight train could  
be made up; cheapness and ease with  
which it could be adapted to any coupler.  
Railroad men who have seen it speak  
well of it, but there will be a very thor-  
ough trial of many bars, before a final  
decision is reached. The bar tried in the  
Grand Trunk yard, is as largely auto-  
matic as any yet presented to the atten-  
tion of the railroad public.

This coupler is the invention of Mr.  
Charles Whitins formerly of this city.  
The test was made in the presence of the  
Grand Trunk officials and Mr. Evans of  
the Great Eastern.

## Harbor Notes.

The Cornelia H., looking fresh as a  
pink, went back to duty on the Ferry  
route yesterday. She has been painted  
a dark olive, with light green trimmings.  
The Island steamers with cottagers on  
their decks are beginning to be a feature  
of the harbor traffic.

"The English schooners rarely carry  
a deck load," said an old sailor yester-  
day, as the British schooner Donacoma  
was being towed out with lumber for  
Martinique.

Capt. Fickett put a sailors' library  
aboard the bark Payson Tucker yester-  
day. The Tucker has been overhauled  
recently and reloaded.

The brig Ernestine is at Grand Trunk  
wharf loading spool wood for Scotland.  
The barks Samuel H. Nickerson and  
Oreata are loading lumber at the same  
wharf for the River. The bark Auburn-  
dale is loading lumber at Boston &  
Maine wharf for the same destination.  
The ship Exporter is coming from Bos-  
ton to complete loading for the River  
also.

## Maine Central Road.

The Maine Central road will give a  
grand Masonic excursion to Quebec from  
all points east of Portland, June 23d, at  
reduced rates.

Two sidings, 1000 feet each in length,  
are being constructed at Nobleboro and  
Winslow's Mills, which will enable the  
night Pullmans to pass without any delay.

This afternoon the last train will pass  
over the old ferry boat at Woolwich and  
the new boat will go into commission  
Monday.

The Bar Harbor traffic is very large  
now. Four Pullmans east were full of  
passengers Thursday evening.

The railroad bridge at Bangor got afire  
several times Thursday night, during the  
fire at that place, but was fortunately  
saved.

## Open Air Services.

The open air services, corner Howard  
and Quebec streets, will begin Sunday,  
June 5th, at 5 p. m. The services are  
under the auspices of the St. Lawrence  
street church, and will continue until  
September 1st. Effort will be made to  
secure able preachers. Seats provided  
for the ladies, and all aged persons.  
Gospel hymns No. 5 will be used. Bring  
your books and help the singing, which  
will be led by the cornet. Rev. A. H.  
Wright will preach June 5th.

## A Weekly Occurrence.

It has got to be a weekly occurrence  
and one that is awaited with interest by  
all classes of people; that is the special  
sales at the Atkinson Department Store  
each Saturday. This week, as will be  
seen by a glance at the advertising col-  
umns, there are some extra bargains of-  
fered, and every lady will be interested.  
Each department offers its share and the  
result is tempting to the bargain hunt-  
ers. The majority of these bargains are  
for this day only, so they need early at-  
tention.

## The Mile Track Association.

President [Burnham, Messrs. Jose,  
Fletcher, Farnham, Stanwood, Dennison,  
Barrett, Hawkes and others, met at the  
Preble house yesterday afternoon. More  
subscriptions to the track were announ-  
ced paid in, and the affairs of the as-  
sociation generally talked over. It seems  
to be the idea of some of the directors it  
would be better to wait two years before  
opening the track rather than to go  
ahead with a mortgage on it. The meet-  
ing adjourned to the same place, next  
Wednesday at 3.30 o'clock.

## Quick Sailing.

Schooner Elm City, Capt. Etheridge,  
sailed from Boston for the Kennebec,  
took in a cargo of ice for Washington,  
discharged and went to Georgetown, took  
in a cargo of coal, and arrived at Port-  
land, Thursday, in twenty-one days for  
the round trip.

## Modern Spiritualism.

At the Second Advent church Sunday  
evening, Rev. E. P. Woodward will speak  
upon the subject: "Modern Spiritualism  
Demonstrated by Its Own Literature To  
Be Wholly Unbiblical and Anti-Christ-  
ian."

## AMONG THE GRANITE WORKERS.

The Present Trouble Described at the  
Labor Union's Meeting.

At City hall last night, under the  
auspices of the Central Labor Union of  
this city, a mass meeting was held and  
several speakers were heard by a smaller  
audience than the importance of the oc-  
casion and the interesting remarks of the  
speakers warranted. The American  
Cadet Band afforded excellent music.  
Mr. Edgar E. Rounds introduced as the  
chairman of the evening Walter C. Em-  
erson, Esq., who, with a few appropriate  
remarks, introduced as the first speaker  
Mr. W. J. Lyons, of Rockland. Mr.  
Lyons is a prominent worker of the  
Granite Cutters' Union, is a workman  
today and has served in the state legis-  
lature. He devoted his remarks to the  
present trouble among the granite work-  
ers. He said that previous to 1876, there  
was no organization and wages were  
good, in Maine, granite laborers averag-  
ing \$4.50 a day. There was a great deal  
of government work. Laborers were  
imported from Scotland, England and  
Ireland. There was work for all. These  
foreign laborers brought with them the  
spirit of organization, and when after 1876  
the government changed the bill of prices  
to piece wages, giving the work to con-  
tractors, and the result was more work  
and less wages, there was much dis-  
content, a temporary organization was  
formed. Delegates met at Rock-  
land, March 15, 1877. Since then the his-  
tory of the movement has been one of  
progress.

The late Governor Bodwell, in 1885,  
was the first man to recognize the right  
of the laborers to organize. It has al-  
ways been the custom of the granite cut-  
ters to have their bill of prices expire in  
the spring, and the desire of the man-  
ufacturers to have it expire in January is  
a new move. Up to 1890 the granite cut-  
ters of New England had been working  
but eight and nine hours a day, but it  
was piece work, and they were receiving  
less wages for more work than western  
laborers. In November, 1889, it was de-  
cided that for nine hours work all wages  
should be the same as for 10 hours work.  
As a result of this action of the laborers,  
the manufacturers' association was in-  
augurated and the first meeting was held  
in Boston, February 27, 1890. Important  
action was taken and it was voted that  
no increase of price was justified in the  
present state of business. That meant  
fight. A strike followed and the strik-  
ers won. One of the conditions of the  
terms agreed upon was that both sides  
should give four months notice of any  
intention to change the bill of prices.  
The strikers claim that an honest com-  
pliance with that is all that is necessary.  
They are willing to rest the  
case upon that point. But the manufac-  
turers have not done as they  
agreed. The wages for the year are not  
the cause of the present strike. But  
last April 28th, all branches of the Gran-  
ite Cutters' Union whose bills of prices  
expired May 1st, were notified by the  
manufacturers of a change of prices to be  
in effect July 1st, 1892. This was a  
notice of only 48 hours, whereas four  
months was the time agreed upon. It  
was like a thunderbolt to the granite cut-  
ters. They had no time to call even a  
special meeting. What could they do  
but strike? They did so May 1st, and  
May 5th were notified that unless a set-  
tlement was made by May 14th there  
would be a general lockout of all em-  
ployees, and the result is that today the  
granite business of New England is par-  
alyzed.

Mr. F. W. White, vice president of the  
Maine Branch of the Federation of Lab-  
or, and Mr. Frank K. Foster, editor of the  
Labor Leader of Boston, spoke inter-  
estingly upon labor topics.

## NEW ADVERTISEMENTS.

The Weather Today  
is likely to be  
fair.

PORTLAND, June 4, 1892.

THE basement has  
just unbarrelled a  
fresh arrival of  
Dorffinger's cut Glass in  
thirty or forty new shapes  
and styles of cutting.

Dorffinger's is the best,  
as you know, and this  
new stock is the pick of  
all the latest productions  
of the Dorffinger works.

The prices are not  
high.

You'll need dishes to fit  
out the summer cottage  
maybe; not the fragile  
sort to be broken in a  
day, nor the cheap and  
vulgar domestic kinds  
covered with colored  
decorations. The Japan-  
ese ware is by all  
odds the best for Country  
houses, it is strong, dura-  
ble, pretty and cheap.  
The biggest stock of it in  
Maine is in the basement  
department here and just  
at present is a bit more  
varied than usual.

There's also a choice  
selection of Royal Wor-  
cester, Crown Derby,  
Doulton and other fine  
high class imported  
pieces of pottery, suitable  
for wedding and occasion  
gifts.

OWEN, MOORE & CO.

ON JUNE 4TH, 1892, AMY  
ROBERTS was married to Queen  
ELIZABETH'S favorite, the Earl  
of LEICESTER.

Many marks of royal favor  
led LEICESTER to suppose that  
he might become a Queen's con-  
sort; hence AMY'S death at  
Cumnor Hall, a tragedy which  
inspired SCOTT'S famous novel  
of Kenilworth Castle.

The hot weather Thursday made  
Summer Suits in lively demand.  
Yesterday followed in the wake, and  
today we'll be more than busy—  
weather permitting.

We've assorted in sizes this week,  
so that the stock is complete.

Blue Serge suits are always popu-  
lar for warm weather; \$12, \$15, \$16  
and \$18. Light Cheviot and Scotch  
Suits; \$7.50, \$8, \$9, \$10, \$12 to \$20.  
Thin Muslin wear of all kinds, 50  
cts. to \$1.50. Negligee Shirts, 50  
cts. to \$2.50. Summer Furnishings  
of all kinds.

**SOAP** is a mark of  
civilization.

How far from barbar-  
ism is our store front  
this week showing as it  
does some 40 kinds of  
soaps.

The prices are reason-  
able and of wide range  
of choice.
